

# GLOBAL OIL AND GAS SUPPLIES

## T600

### TH Tubing Pump Assembly

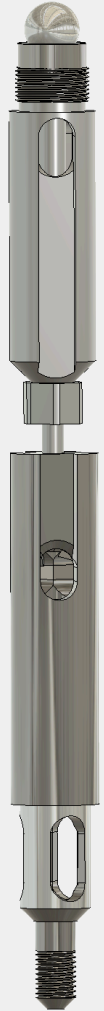

(The Gas Terminator)

#### Features

- Standing valve puller attaches to the drag plunger
- Superior exterior flow channel design and solid plunger
- Eliminates pressure drop as fluid is not channeled through the center or small ports
- Stainless steel alloy components to withstand corrosive environments

#### Benefits

- Eliminates gas locking
- Retrieve standing valve on initial rod pull
- Pump high gas to liquid ratio wells
- Eliminates need for re-spacing to get gas lock out of pump
- Elongates pump and equipment life
- Achieves maximum pump efficiency
